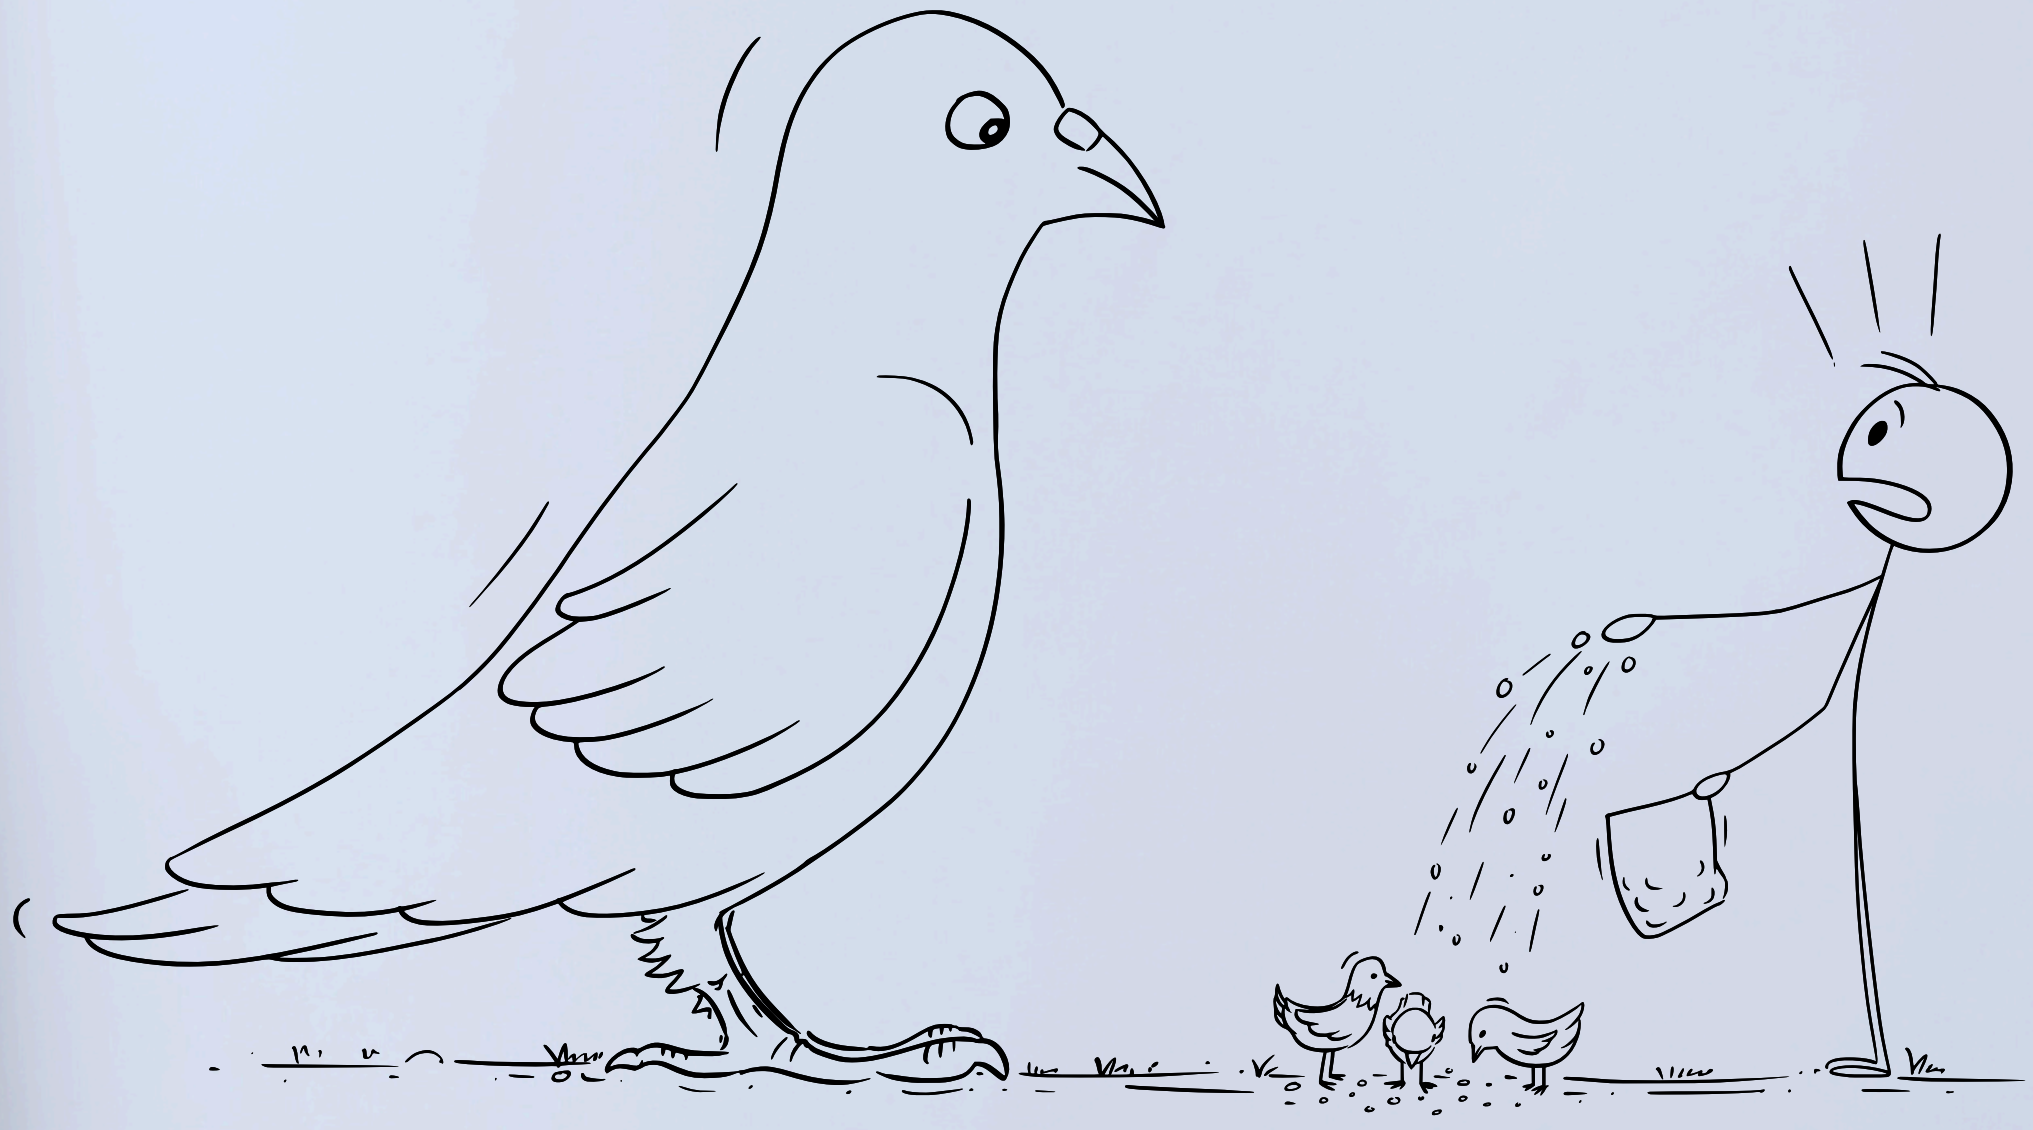
10 Laws That Change How You Think

(Master these or risk repeating mistakes)



By Luke Tobin

1. Murphy's Law

Anything that can go wrong, will go wrong.

Warning:
Always prepare for the worst-case scenario, things WILL break down.

By Luke Tobin

2. Kiddlin's Law

If you can fool yourself, you are a genius.

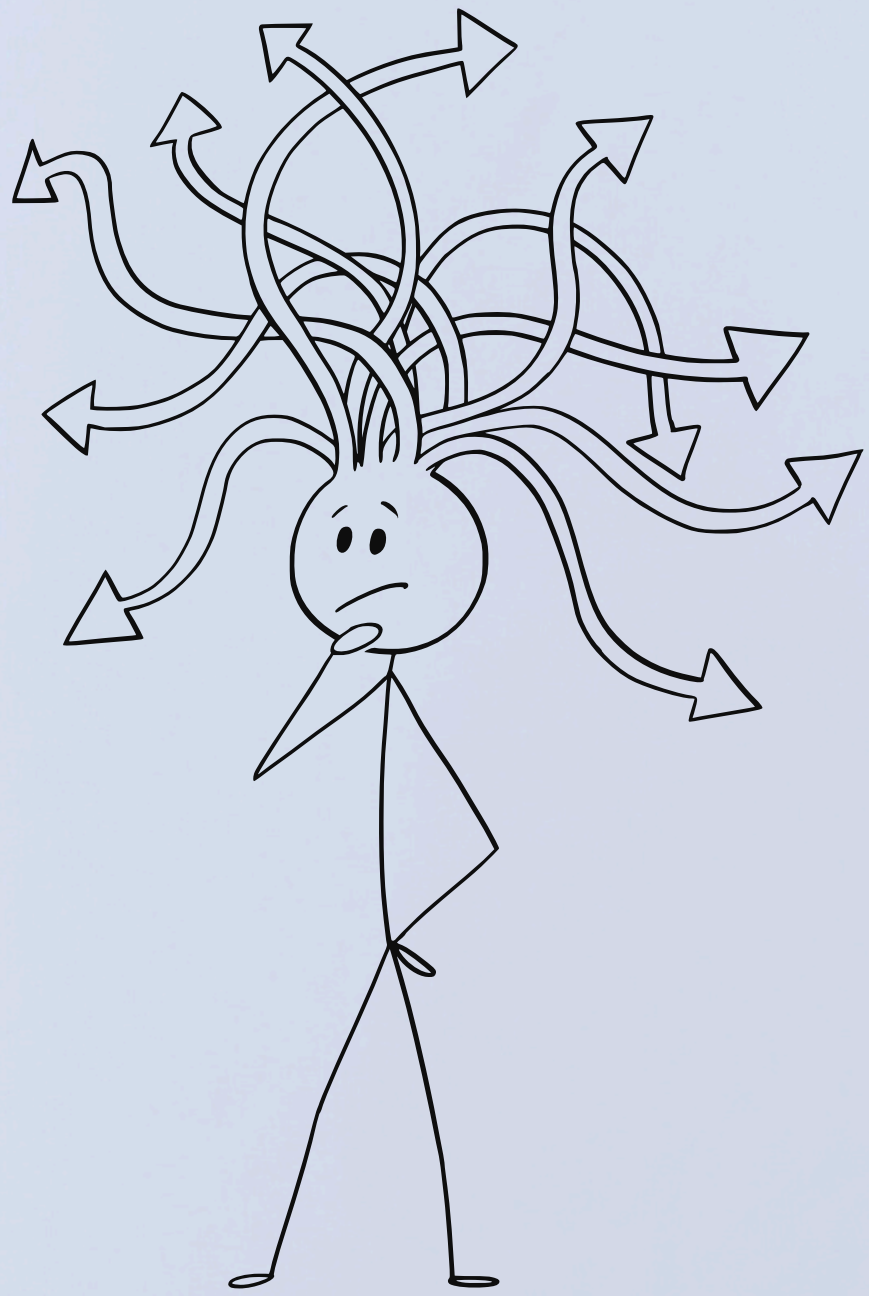
Warning:
Beware of self-deception, it can block your path to success.

By Luke Tobin

3. Gilbert's Law

The biggest problem at work is that none of the people doing the work are in a position to make decisions.

Warning:
Make sure decision-makers are informed by frontline realities or risk failure.



By Luke Tobin

4. Wilson's Law

As soon as you find a product that you really like, they will stop making it.

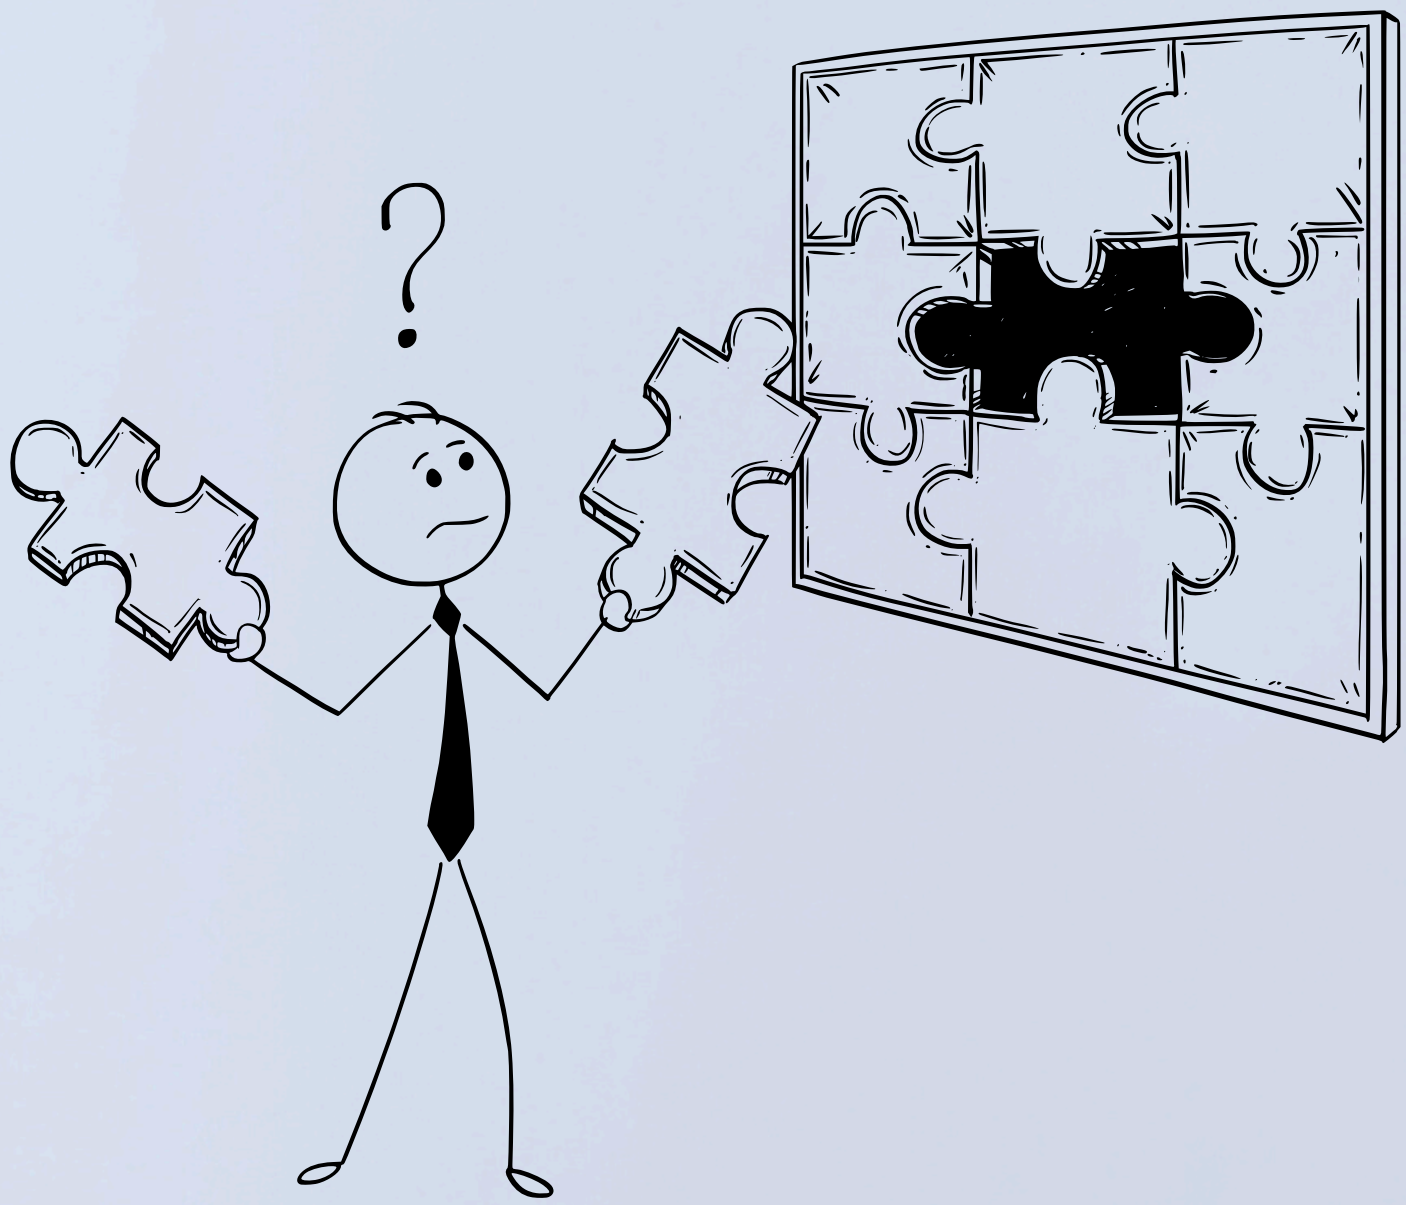
Warning:
Don’t get too comfortable, always have alternatives.

By Luke Tobin

5. Falkland's Law

When it is not necessary to make a decision, it is necessary not to make a decision.

Warning:
Sometimes, hesitation is wiser than rash action.



By Luke Tobin

6. Newton's First Law

An object in motion stays in motion, and an object at rest stays at rest unless acted upon by an external force.

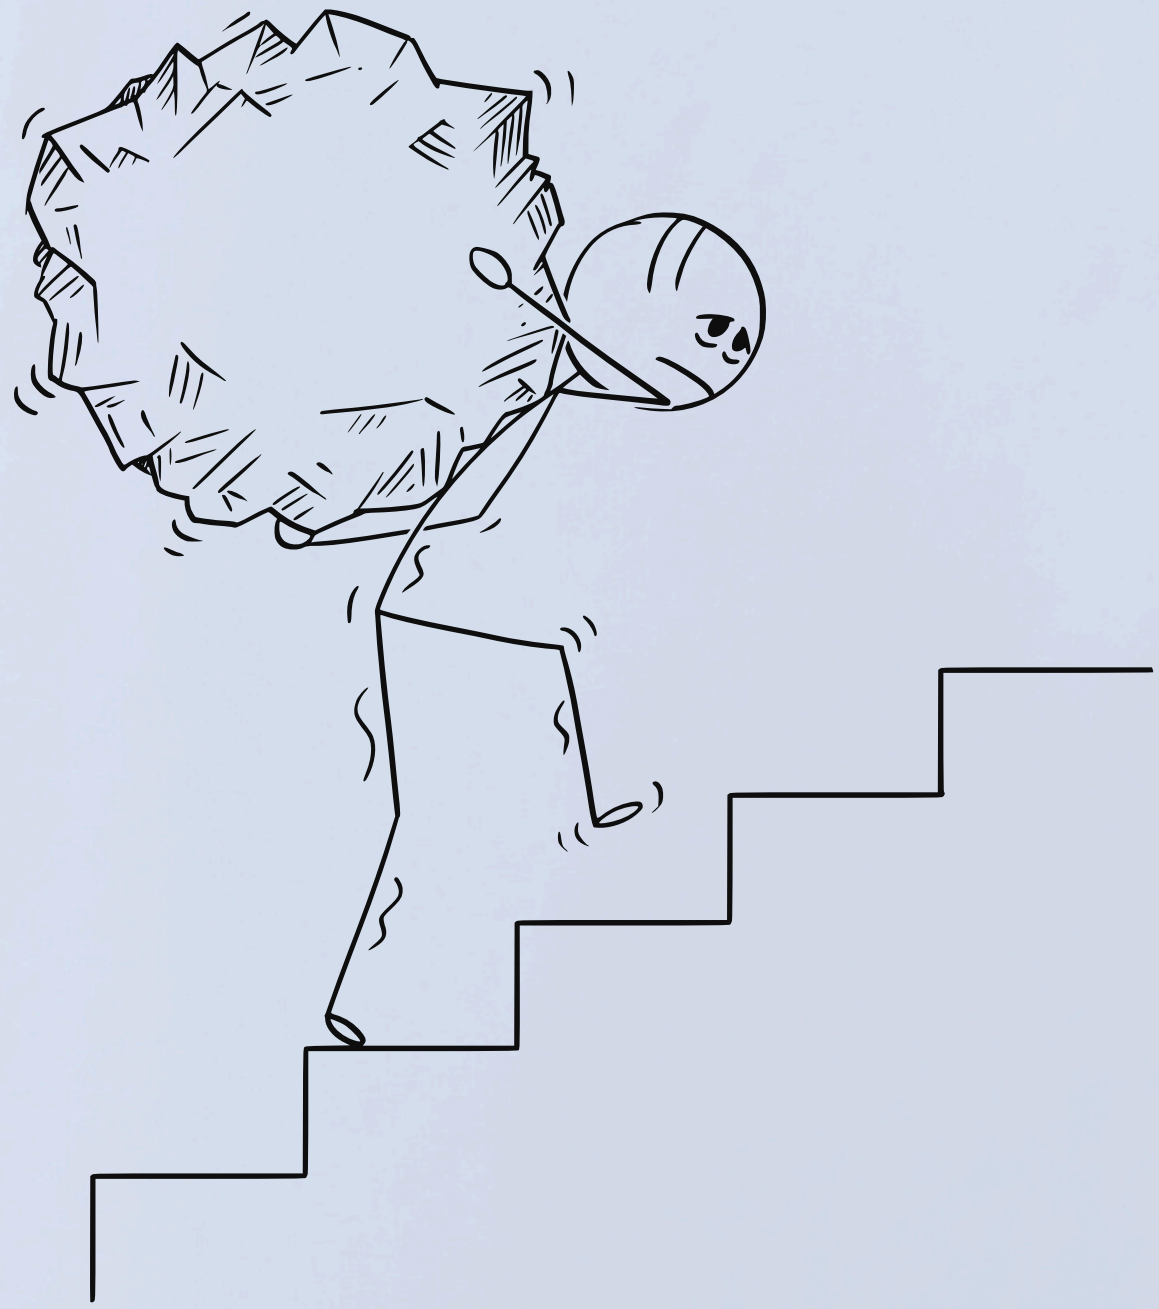
Warning:
Momentum is powerful. Use it, or risk stagnation.

By Luke Tobin

7. Pareto Principle (80/20 Rule)

80% of consequences come from 20% of the causes.

Warning:
Focus on the vital few, or waste effort on the trivial many.



By Luke Tobin

8. Parkinson's Law

Work expands to fill the time available for its completion.

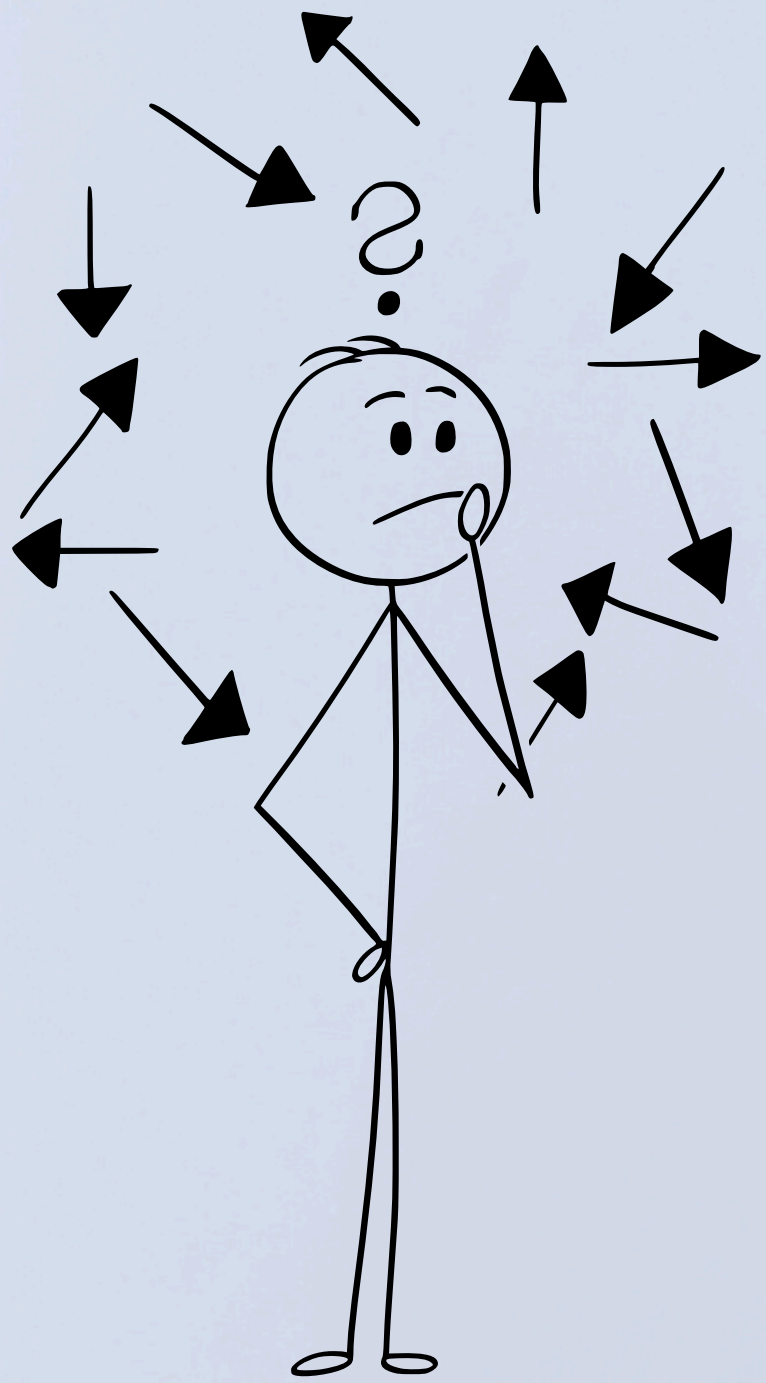
Warning:
Set strict deadlines or watch tasks drag endlessly.

By Luke Tobin

9. Hick's Law

The time to make a decision increases with complexity.

Warning:
Simplify choices to speed up decision-making.



By Luke Tobin

10. Occam's Razor

The simplest explanation is usually the correct one.

Warning:
Don’t overcomplicate look for straightforward answers first.
